

Family Services

About

Developed for Canadian family service organizations, EMHware is a secure, flexible platform built to manage complex programs. Capture family relationships, track outcomes, and simplify reporting in one efficient, integrated platform.

Created for compliance while supporting tailored workflows for counselling, parenting programs, supervised access, and more, EMHware consolidates multi-program data into one integrated platform, enabling frontline workers to focus on meaningful engagement and lasting family impact.

Benefits

- ✓ **Whole-family focus:** Supports programs involving multiple family members, capturing complex family dynamics and shared outcomes
- ✓ **Simplifies connection:** Consolidates data programs and workflows in a single efficient platform
- ✓ **Data you can trust:** Compliant and secure data, structured for strict funding and regulatory requirements

More than 15 years supporting family services organizations with meaningful and connected care.

Family Services

Why it matters

- ✓ **Streamlined Family Care:** Track progress across family units, not just individuals, to support stronger outcomes
- ✓ **Trusted and Secure Data:** Protect sensitive family information while maintaining compliance, giving families and staff confidence in confidentiality
- ✓ **Integrated Workflows:** Replaces multiple fragmented systems, connecting programs, clients, and organizations, keeping families supported across services
- ✓ **Simplified Reporting:** Consolidate multi-program and multi-client data to generate funder-ready reports, track outcomes, and demonstrate impact across family units
- ✓ **Partner-driven:** EMHware works with organizations to design workflows and impactful features that improve family engagement and support better outcomes
