

First Nations

About

Developed in Canada with Indigenous and diverse communities in mind, EMHware is a secure, flexible platform that connects social services, healthcare, and community wellness programs to support holistic well-being.

Created for compliance and built with respect for community values, EMHware empowers First Nation organizations to manage programs, protect their data, and streamline reporting, all in one efficient, integrated system.

Benefits

- ✓ **Empowered data autonomy:** Fully own, control and protect your data
- ✓ **Community driven program development:** Shape programming based on real time data and insights from EMHware
- ✓ **Improved service delivery:** Minimize administrative tasks to focus on client care and community engagement

*Supporting 50+ First Nation communities with
secure and culturally responsive care.*

First Nations

Why it matters

- ✓ **Inclusive Care Supports** unique community needs, using configurable tools reflecting diverse approaches to holistic wellness across body, mind, spirit, and community
- ✓ **Data Control Communities** retain ownership of their data, securely stored in Canada and accessed only by consent
- ✓ **Simplified Reporting Built-in** tools streamline reporting, letting staff focus on supporting community members
- ✓ **Community Wellness Manage** wraparound services including mental health, addictions, and housing in one place
- ✓ **Culturally Aligned Training Opportunity** to collaborate with a First Nations partner to ensure training reflects community priorities and traditions
