## About

EMHware is a secure, Canadian-built platform supporting student well-being and mental health from K-12. Simplified workflows that focus on accessibility and impact, empowers teachers and counsellors to deliver effective support quickly and foster positive outcomes for every student.

*Being accessible to kids when they need support is the biggest success... if you have an open door and a kid needs you; they get help in the moment and they're able to return to class and focus on their academics and focus on their well-being.*

- Deana Renaud, Superior-Greenstone District School Board (SGDSB)
